

Biblical Significance of Color

Do you dream in color? Are you an artist or painter?

Because both apply to me, I've been curious about the biblical meaning of the colors I see in dreams or choose for a painting. My curiosity has led me to the Bible to study where God has specifically identified colors for us.

Then I created charts to help me quickly see the meanings that colors might represent in our dreams and art work.

I am happy to share some of research with you. I pray this assists you in understanding how God is speaking to us through color and design.

Blessings,

MaryAnn Ward
